WHAT DO WE DO?
At LEAD, we provide a variety of programs focused on helping students to see their own leadership potential and to help them cultivate their leadership skills. We offer activities focused on leadership and leading through service. We provide a safe environment in which students can challenge themselves and learn more about themselves as well.

The LEAD Office works collaboratively with students, faculty, and staff to provide leadership education, training, and development for students at all levels of leadership development.

OUR PHILOSOPHY
Our Vision
More effective, ethical leaders for the world.

Our Mission
Leadership Education and Development (LEAD) believes that everyone has the potential to be a leader. We provide leadership training, resources, services, and recognition to empower students to create positive change.

We are committed to:
- Empowering and inspiring students to make positive change
- Transforming leadership theory into practical experience
- The practice and development of ethical leadership
- Challenging students to lead with a focus on well-being
- Instilling a passion for leadership
- Valuing multiculturalism and the contribution of all people
- Supporting a range of believes about what constitutes leaders and leadership across world cultures
- Collaborative partnerships
